CERTIFICATE OF ANALYSIS
Disinfectant Efficacy Test
Against H1N1 Influenza A Virus

Supplier: McGean-Rohco UK Ltd
Qualcast Road
Lower Horseley Fields
Wolverhampton
WV1 2QP

Product: A-18S
Batch Number: 09-09-118
Expiry Date: 27/09/2011
Date Received: 02 October 2009
VLA Sample Reference: MS418/09
Test Method Reference: QCU0483
Date On Test: 22 October 2009
Date Off Test: 30 October 2009
Certificate Number: H1N1/09/30

TEST REPORT

Toxicity Test Results

Test Dilution	Result
1:2	NON - TOXIC
Negative Control	NON - TOXIC

Disinfectant - Virus Test Results

Specification: To pass the test the diluted disinfectant must reduce the titre of the virus by ≥ 4.0 .

Dilution	Virus Titre	Reduction	Conclusion
1:2	0.76	4.29	PASS
Positive Control	5.05	N/A	PASS

CONCLUSION

Disinfectant A-18S was non-toxic to the test system and demonstrated efficacy against H1N1 Influenza A Virus at the dilution tested.

NB. This test **does not** constitute Defra approval for the use of the disinfectant against H1N1 Influenza A Virus.
